

Step-1 : Go to this URL and register yourself.

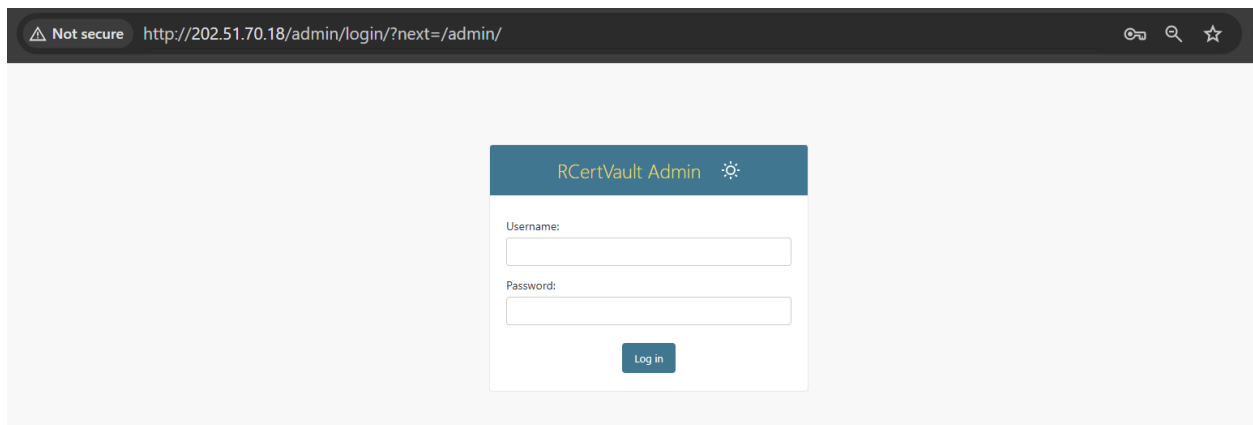

Url :- <http://202.51.70.18/register/>

A screenshot of a web browser showing the registration page for RCertVault. The browser's address bar displays "Not secure http://202.51.70.18/register/". The page has a light blue background with a central white registration form. The form is titled "Welcome to RCertVault" in purple, followed by the instruction "Please fill the below form to register." The form contains six input fields, each with a label and an asterisk: "Username*", "Password*", "Confirm Password*", "Full Name*", "Email*", and "Contact*". Below these fields is a blue "Submit" button. At the bottom of the form, there is a small copyright notice: "© 2025 RCertVault. All rights reserved."

Step-2 : After the registration is completed, go to the login section.

Url :- <http://202.51.70.18/admin/>

A screenshot of a web browser showing the admin login page for RCertVault. The browser's address bar displays "Not secure http://202.51.70.18/admin/login/?next=/admin/". The page has a light gray background with a central white login form. The form has a header "RCertVault Admin" in teal with a gear icon. Below the header are two input fields: "Username:" and "Password:". At the bottom of the form is a teal "Log in" button.

Step-3 : Use your username and password to log in to the dashboard.

Welcome to the RCertVault Dashboard

1 api token

Step-8: Before your API works, your organization's Maker and Checker must approve your request.

- Look at the Status in Key Holders; it should be Checker Approved.
